Minimum Supplier Commitments

This document states our expectations for business conduct from all suppliers wishing to do business with, or on behalf of, Lifezone Metals and its group companies. It should be read in conjunction with the Lifezone Metals Code of Conduct and Business Ethics which applies to all of our employees, officers and directors, and to our partners and suppliers when they are working with us or on our behalf. We define a 'supplier' as a business or individual that provides goods or services to Lifezone Metals and expect suppliers and their sub-contractors to review, understand and comply with this document. Where there are areas of weakness or non-compliance, suppliers are expected to develop and execute a remedial improvement plan (with support as necessary) as well as report any material incidents and/or breaches of laws and regulations promptly to Lifezone Metals.

We seek to build mutually beneficial working relationships and partnerships with our suppliers through the development and continual improvement of processes and systems that address the expectations of this document and will show preference for those suppliers who are able to demonstrate alignment with these expectations.
