
Expression of Interest**(EOI) ADVERTISEMENT****TEMBO NICKEL CORPORATION LIMITED: KABANGA NICKEL PROJECT**

Requests the Submission of Expressions of Interest (EOI) from Suitably Qualified and Experienced Parties wanting to Participate in the Work Package below.

Reference No. 9643-31-0076

Package description: Site Fuel supply

Tembo Nickel Corporation (“Tembo”) is an operational company established through the Framework Agreement (19 January 2021) between Kabanga Nickel Limited (“Kabanga Nickel”) and the Government of Tanzania (“GoT”) for the development of the Kabanga Nickel Deposits in the Ngara District in North-West Tanzania. Under the terms of the Framework Agreement, Tembo (owned 84% by Kabanga Nickel and 16% by GoT) has been officially formed for the mining, processing, and potential future beneficiation of nickel, copper and cobalt.

The Project is a fully integrated, greenfield development that will produce nickel, copper, and cobalt products for the global market. As one of the world’s largest undeveloped high-grade nickel sulfide deposits, the Project represents a globally significant opportunity aligned with the accelerating transition to a low-carbon economy and is positioned to deliver both strategic value to the global supply chain and meaningful economic and social benefits to Tanzania and its citizens. The Kabanga Mine, Concentrator, and associated infrastructure are situated at the Kabanga Site, where nickel sulfide concentrate will be produced.

1. BRIEF DESCRIPTION OF THE SCOPE OF WORK

The service provider shall supply and deliver diesel fuel via road tankers to the Kabanga Site. Additional to the supply of diesel, the service provider will also provide storage and dispensing infrastructure on Site with a 14-day holding capacity estimated at 250,000L. The storage infrastructure will include:

- Self-bunded storage tanks
- Decanting and dispensing pumps
- Positive displacement decanting and dispensing meters
- All interconnecting piping, hosing and valves
- All instrumentation and safety devices
- Fuel Management System
- Fire protection and fire suppression system.

The service provider is required to:

- Maintain and calibrate all fuel pumps and meters at least once every three months;
- Attend to emergency breakdowns of fuel pumps and the fuel management system within 4 hours of a call;
- Liaise with Tembo Nickel if any repairs and maintenance works is to be carried out on the fuel or on the fuel management system;
- Submit on a quarterly basis, maintenance and service reports on the fuel and lubrication pumps;
- Check and verify the quality of fuel in the storage tanks to see if there is a concern of contamination
